THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL)

ESTABLISHED 1902

INDEX TO VOLUME LIX

July to December, 1938

Head Office:
49, Wellington Street, London, W.C.2

Index to Volume LIX

SUBJECT INDEX

A

Abrasives, Investigation into the Use of Metallic, 408.
Activated Carbon Works, 266.
Air Compressor, Holman Two-Stage, 92.
Aluminium-Magnesium Alloys by Additions of Beryllium and Titanium, Improvement of Cast, 373.
Aluminium on the Properties of Medium-Carbon Cast Steels, Effect of, 143.
Aluminium-Silicon Alloys, Heat-Treatable, 162.
Aluminium Statistics, World, 174.
Aluminium Test-Bars, Influence of Moisture Content of Moulding Sand on Strength Properties of Cast, 289.
American Foundry, Modernising an, 101.
American Notes, 177, 204, 350.
American Society for Testing Materials, Reports and Papers submitted at Annual Meeting, 81.
American Specifications for Cast Irons, 130.
Argentine Republic, Import Trade of, 197.
A.R.P. and Rating Assessments, 217.
A.R.P. Shelters, 228.
Australian Foundrymen Form Technical Institute, 338

B

Bauxite, World Supplies of, 344.
Beryllium and Titanium, Improvement of Cast Aluminium-Magnesium Alloys by Additions of, 373.
Blast-Furnace Capacity, Optimum, 7.
Blow Lamps, Use of, 488.
British Cast Iron Research Association, Annual Meeting, 482.
British Cast Iron Research Association, Annual Report and Luncheon, 469.
British Foundry School, 78, 140.
British Ironfounders' Association, Annual Dinner of, 440.
Broken Hill Developments, 273.
Bronze Casting in China, Early, 121.
Budgetary Control and Standard Costs, 103, 122, 137, 156, 175, 194.
Burners, Foundry Application of Turbulent Gas, 144.

C

Canadian Iron and Steel Industry, 386.
Cast Iron, Copper in, 8, 85.
Cast-Iron Enamels, Preparation and Milling of Sheet-Iron and, 255.
Cast Iron, High-Duty, 447.
Cast Iron in the Cupola, Chemical Changes in, 43, 312.
Cast Iron in the Last Hundred Years, 153.
Cast Iron, Manipulation of Molten, 59.
Cast-Iron Research and the Gas Industry, 199, 216.
Cast Iron, What We Do Not Know About, 387, 403.
Cast Irons, American Specifications for, 130.
Cast Irons for General Engineering Purposes, High-Duty, 459, 483.
Cast Irons, Hardness Measurements of Very Hard Steels and White, 133
Cast Metals and Alloys, Cavitation Erosion of, 88, 99.
Cast Steels, Effect of Aluminium on the Properties of Medium-Carbon, 143.
Castings, Cardinal Points in the Modern Production of Light Ferrous, 432.
Castings, Refinement of the Structure of, 311, 354, 375.
Castings, Relief of Internal Stress in, 87.
Castings, Some Defects of, 385.
Cavitation Erosion of Cast Metals and Alloys, 88, 99.
Cement Moulding, Randupson Process of, 49, 136.
Cement-Sand Preparation Plant in a Large Non-Ferrous Foundry, 247.
Chains, Ropes and Lifting Tackle, 96.
Charging Hoists, Cupola, 83.
Chemical Changes in Cast Iron in the Cupola, 43, 312.
Chemist Looks at the Foundry, 487.
Chilled-Iron and Other Rolls, 369.
Chilled Iron, Properties and Uses of, 105.
China, Early Bronze Casting in, 121.
Clyde Alloy Steel Company, Limited, New Research Laboratories of, 303.
Cobalt in Steel, 246.
Coke, Determination of Reactivity of, 246.
Compression Strength and Shearing Strength of Moulding Sand, 429.
Compressors for Small Outputs, Monobloc-Type, 196.
Congress in Poland, First International Foundry, 211, 229.
Contraction of Cast Iron, Shrinkage and, 191.
Contraction Tests for Low-Melting-Point Alloys, 201.
Copper in Cast Iron, 8, 85.
Copper-Iron Alloys, Liquid Layers in, 36.
Copper Outlook, Uncertain, 42.
Copper Producers, Problems for, 416.
Copper-Steel Castings, 345.
Copper Still Climbing, 210.
Copper, Still More, 302.
Coreshop Layout, Foundry Drying and Modern, 423.

Correspondence:—

Annual Cricket Match, 152.
Budgetary Control, 152.
Control in Chilled-Shot Manufacture, 116, 132.
Desulphurising Pig-Iron, 320.
Evaluation of Returned Scrap, 478.
F.C.I.R.A., 40.
Hydrogen in Iron and Steel, 132.
Inventions, 382.
Remelting Borings, 40.
Riddle of the Sands, 116.
Sand at Elevated Temperatures, 172.
Some Factors in Sand Testing, 2, 40.
Tropenas Blowing Record? 22.
Tropenas Practice, 152, 190.
Use of Manganese Ore in the Cupola, 400.
Valve Design, 152.
Corrosion of Pipe, Underground, 182.
Corrosion Resistance, Available Protection Processes for, 124.
Costs, Budgetary Control and Standard, 103, 122, 137, 156, 175, 194.
Creep of Metals under Repeated and Static Stresses, 251.
Crucible Furnace, Continental Tilting, 248.
Crucible Life, Lengthening Graphite, 141.
Cupola Charging Hoists, 83.
Cupola, Chemical Changes in Cast Iron in the, 43, 312.
Cupola Linings, Effect of Fluxes on, 349.
Cupola, Use of Manganese Ore in the, 376.
Cupolas, Rust Preventive for, 276.
Cylinders for Private-Aircraft Engines, Production of, 173.

D

Deoxidising Agents, 486.
Deoxidising Non-Ferrous Alloys, 210.
Desulphurising Pig-Iron by Ladle Treatment with Soda Ash, 269.
Die-Casting Alloys, Zinc, 235.
Diesel Engine Cylinders, Manufacture of, 59.
Drying and Modern Coreshop Layout, Foundry, 423.
Dust Collectors for Grinders, 64.

E

Electric Furnace Practice in the United States, 445, 463.
Electric Furnaces in European Steelworks, 363, 392.
Electrical Accidents in Industry, 293.
Empire Exhibition, Artistic Castings at the, 117.
Enamel Constituents, Modern Handling Plant for, 166.
Enamel Frits at and near Firing Temperatures, Consistency of, 258.
Enamelling Furnace, Continuous, 257.
Enamels, Preparation and Milling of Cast-Iron and Sheet-Iron, 255.
Erosion of Cast Metals and Alloys, Cavitation, 88, 99.
European Steelworks, Electric Furnaces in, 363, 392.

F

Fe-Ni-Al Alloys, Influence of Titanium and Molybdenum on the Magnetic Properties of, 305.
Feeding, Principles of Gating and, 367, 383.
Flame-Cutting of Cast Iron, 205.
Fluidity-Temperature Relations of Cast Steels of Various Compositions, 324.
Fluxes on Cupola Linings, Effect of, 349.
Foundry, A General Engineering, 321, 351.
Foundry Industry of the United Kingdom, Some Notes on the Structure of the, 249.
Foundry Practice, Surmounting Difficulties in, 177.
Foundry Tool, Useful, 190.
Foundry Trade, Overseas, 365.
Foundry Variables, Effect of, 119.
France, Notes from, 172.
French Foundry Congress, 34.
Frit Making, Silicosis Dangers in, 92.
Frits, Consistency of Enamel Frits at and near Firing Temperatures, 258.
Furnace, Continental Tilting Crucible, 248.
Furnace, New Combustion, 98.
Furnace Practice in the United States, Electric, 445, 463.
Furnaces in European Steelworks, Electric, 363, 392.

G

Gamma Rays, Non-Destructive Testing by, 157.
Gas Burners, Foundry Applications of Turbulent, 144.
Gas Industry, Cast-Iron Research and the, 199, 216.
Gas Opacification of Vitreous Enamels, 165.
Gas Temperature Measurement, Symposium on, 374.
Gases and Metals, 159.
Gases on Steel, Attack of Hot, 195, 220.
Gate-Valve Design and Its Correction, Fault in, 135.
Gating and Feeding, Principles of, 367, 383.
Gears Centrifugally Cast by Ford Motor Company, 126.
Glenfield & Kennedy, Limited, Extensions at, 25.
Graphite Crucible Life, Lengthening, 141.
Graphitisation in Cast Iron, Theoretical and Practical Significance of, 181.

Grinders, Dust Collectors for, 64.
Grinding Machine, Modern Duplex High-Speed, 110.
Grinding of Raw Materials, 163.

H

Hacksaws, Power, 144.
Hadfield Metallurgical Laboratories at Sheffield University, Sir Robert, 213.
Handling Plant for Enamel Constituents, Modern, 166.
Hard Facing, 296.
Hardness Measurements of Very Hard Steels and White Cast Irons, 133.
High-Duty Cast Iron, 447.
High-Duty Cast Irons for General Engineering Purposes, 459, 483.
Holidays with Pay, Some Legal Provisions, 248.

I

Induction Furnaces, Refractories for, 158.

Institute of British Foundrymen:—

Alteration of Bye-Laws, 285.
Birmingham Branch, Opening Meeting of Session, 314.
Cricket Match *versus* Works Managers, 174.
East Midlands Branch, Presidential Address, 268.
Election of New Members, 11, 304.
Lancashire Branch, Propaganda Meeting in Liverpool, 366.
London Branch, Annual Dinner and Dance, 466.
London Branch, Opening Meeting of Session, 267.
Middlesbrough and Newcastle Branches, Joint Visit to Darlington Steel Foundry, 478.
Sheffield Branch, Judges' Account of Apprentices' Patternmaking Competition, 485.
South African Branch, First Annual Meeting of, 60.
West Riding of Yorkshire Branch, Opening Meeting of Session, 278.
Institute of Fuel, Annual Meeting in London, 294.

Institute of Vitreous Enamellers:—

American Tour, Alternative Itinerary for, 92.
Fifth Annual Conference in London, 162, 329.
Scottish Regional Conference, 13.
Iron and Steel Institute, Autumn Meeting in London, 278, 328.
Iron and Steel Production in January to June, World, 202.
Iron-Ore Deposits in the Transvaal, New, 382.
Iron Silver Alloys, 350.
Ironfounding in England, Early Development of, 389, 405.

L

Lancashire Steel Company, The Old, 296.
Lancastria Club, 428.
Lathe Bed, Making a Large, 441.
Lead, Dearer, 190.

Leaders:—

Aluminium, 381.
B.C.I.R.A. Progress, 457.
Branch Programmes, 265.
Building Exhibition, 209.
Business Conditions at Short and Long Range, 1.
Cavitation Erosion, 1.
Competing Industries and Standardisation, 77.
Factory Report, 115.
Fifty Questions, 171.
First International Congress in Poland, 131.
Foundry Lighting, 283.
Hardness, 21.
High-Duty Cast Iron, 457.
Holiday Savings, 265.
Hydrogen in Iron and Steel, 97.
International Foundry Dictionary, 477.
Inventions, 361.
Ladle Additions, 57.
Manganese Ore in Cupola Practice, 361.
Non-Existent Problem, 21.
Pattern Varnishes and Colouring, 57.
Present Position of Foundry Mechanisation, 151.
Progress, 301.
"Queen Elizabeth," 227.
Repercussions, 245.
Riddle of the Sands, 77.
Shops and Their Upkeep, 39.
Sir Robert Hadfield Laboratories, 209.
Speculations on a New Process, 399.
Square Deal, 439.
Standard Cast Irons, 421.
Standardising Standards, 319.
Steel Castings Report, 319.
Technical Surveys, 189.
The 1939 Congress, 245.
Where Grey Iron and Malleable Meet, 227.
Works Visits, 343.
Light Alloys in Foundry Practice, Use of, 232.
Light Castings Industry, Trading Conditions in the, 302.
Light Ferrous Castings, Cardinal Points in the Modern Production of, 432.
Loam Moulding a Special Strainer, 84.

M

Machine-Tool Castings, Modern Manufacture of, 3, 68.
Magnesium Foundry Practice, 218.
Magnesium-Metal Production, 252.
Magnetic Properties of Fe-Ni-Al Alloys, Influence of Titanium and Molybdenum on the, 305.
Malleable Iron, Production of Short-Cycle, 146.
Manganese Ore in the Cupola, Use of, 376.
Merchandise Marks, Fraudulent, 348.
Metallic Abrasives, Investigation into the Use of, 408.
Metallurgist, Training of the, 407.
Metals, Gases and, 159.
Metals, Rally in, 284.
Middlesbrough Foundry Courses, Progress in, 22.
Milling of Cast-Iron and Sheet-Iron Enamels, Preparation and, 255.
Molten Iron, Viscosity Measurement on, 143.
Molybdenum on the Magnetic Properties of Fe-Ni-Al Alloys, Influence of Titanium and, 305.
Mould Surface Defects, Study of, 70.
Moulding Sand on Strength Properties of Cast Aluminium Test-Bars, Influence of Moisture Content of, 289.
Moulding Sands at Elevated Temperatures, Practical Value of Controlling the Properties of, 79.
Moulding Sands, Some Fundamental Properties of, 274.
Moulds for Builders' Castings, Permanent, 52.

N

National Physical Laboratory, Annual Inspection of, 2.
New Zealand Iron and Steel Industry, 7.
Nickel-Bronze and Allied Alloys, Founding of, 41, 65.
Nickel Cast Irons, 253.
Noise Reduction in Modern Buildings, 204.
Non-Destructive Testing, 431.
Non-Ferrous Casting Alloys, Symposium on, 26.
Non-Ferrous Castings, Silicon in, 104.
Non-Ferrous Foundry, Cement-Sand Preparation Plant in a Large, 247.
Non-Ferrous Foundry Practice, Sand Control in, 236.

O

Oil Burner, "Rotavac," 139.
Opacification of Vitreous Enamels, Gas, 165.
Oxidation and Adhesion, 14.

P

"Pacteron." Powder Metallurgy of Iron with Special Reference to, 401, 451.
Parkinson Stove Company's Mechanised Foundry, 23.
Pattern Colours and Varnishes, 61.
Pattern Construction, Bolts in, 434.
Permanent Moulds for Builders' Castings, 52.
Pig-iron and Steel Output, 52, 136.
Pig-iron by Ladle Treatment with Soda Ash, Desulphurising, 269.
Pig-iron Situation, International, 284.
Pipe Clip, New Design of, 458.
Pipe, Underground Corrosion of, 182.
Pipes, Cast-Iron, 427.
Plaster Patterns, 407.
Plastic Moulding, Scope and Possibilities of the Latest Synthetic Materials for, 118.
Pneumatic Tools for Foundry Purposes, 292.
Poisonous Gases in Industry, 86.
Poland, First International Foundry Congress in, 211, 229.
Powder Metallurgy of Iron, with Special Reference to "Pacteron," 401, 451.
Powdered Materials, Fineness of, 266.
Prices Reduced, Iron and Steel, 458.
Pulverised-Fuel Firing Unit, Portable, 123.

R

Ramming Sand, Investigation of the Time of, 178.
Randupson Process of Cement Moulding, 49, 136.
Rating Assessments, A.R.P. and, 217.
Refinement of the Structure of Castings, 311, 354, 375.
Refractories for Induction Furnaces, 158.
Refractories, Foundry, 239.
Refractories, Selection of, 272.
Road-Haulage Wages, 320.
Rolls, Chilled-Iron and Other, 369.
Ronceray, The Late Mr. E., 452.
Rope Pulleys, 427.
Runners, Bottom, 486.
Russell's Foundries at Leicester Revisited, 233.
Rust Preventive for Cupolas, 276.

S

Safety in Iron and Steel Works, 287.
Sand-Blasting as Applied to the Vitreous Enamelling Process, 12, 90.
Sand, Compression Strength and Shearing Strength of Moulding, 429.
Sand Control in Non-Ferrous Foundry Practice, 236.
Sand, Investigation of the Time of Ramming, 178.
Sand Research and Scrap Reduction, 479.
Sands at Elevated Temperatures, Practical Value of Controlling the Properties of Moulding, 79.
Sands, Some Fundamental Properties of Moulding, 274.
Sands, Two Simple Tests for Moulding, 428.
Scrap, Evaluation of Returned, 458.
Scrap Reduction, Sand Research and, 479.
Shearing Strength of Moulding Sand, Compression Strength and, 429.
Sheet-Iron and Cast-Iron Enamels, Preparation and Milling of, 255.
Sheffield University, Sir Robert Hadfield Metallurgical Laboratories, 213.
Shrinkage and Contraction of Cast Iron, 191.
Silicon in Non-Ferrous Castings, 104.
Silicosis Dangers in Frit Making, 92.
Silicosis, Second International Conference on, 465.
Soda Ash, Desulphurising Pig-Iron by Ladle Treatment with, 269.
South African Foundrymen's Problems, 427.
Special Areas, Industrial Development in, 58.
Spelter Duty, Increase in, 362.
Spelter Prospects, 98.
Standardisation in the Building Industry, 244.
Stanton Ironworks Company, Limited, Extensions to Laboratory of, 484.
Steel, Attack of Hot Gases on, 195, 220.
Steel Castings Production, World, 162.
Steel Castings Research Committee, Third Report of the, 307, 467.
Steel-Foundry Practice, English and American, 29, 48, 63.
Steel Foundry, Use of Electric Welding Plant in the, 448.
Steel, Non-Metallic Inclusions in, 86.
Steels and White Cast Irons, Hardness Measurements of Very Hard, 133.
Steels of Various Compositions, Fluidity-Temperature Relations of Cast, 324.
Steelworks, Electric Furnaces in European, 363, 392.
Stress in Castings, Relief of Internal, 87.
Stresses, Creep of Metal under Repeated and Static, 251.

T

Tar-Distillation Plant, 158.
Testing by Gamma Rays, Non-Destructive, 157.
Testing, Discussion on Non-Destructive, 284.
Testing, Non-Destructive, 28.
Titanium and Molybdenum on the Magnetic Properties of Fe-Ni-Al Alloys, Influence of, 305.
Titanium, Improvement of Cast Aluminium-Magnesium Alloys by Additions of Beryllium and, 373.
Tube-Mill Trunnion Liners, 427.

U

United States, Electric Furnace Practice in the, 445, 463.

V

Varnishes, Pattern Colours and, 61.
Viscosity Measurement on Molten Iron, 143.
Vitreous Enamelling, Pioneer in, 257.
Vitreous Enamelling Process, Sand-Blasting as Applied to the, 12, 90.
Vitreous Enamelling, Scientific Aids to Control in, 333, 412.
Vitreous Enamels, Gas Opacification of, 165.

W

Welded Assemblies, Composite Construction in Heavy, 288.
Welding Foundation, Lincoln Arc, 231.
Welding, Low-Temperature, 238.
Welding Plant in the Steel Foundry, Use of Electric, 448.
Welding Research Progress Report, 64.
White Cast Irons, Hardness Measurements of Very Hard Steels and, 133.
Wild-Barfield Electric Furnaces, Limited, New Research Laboratory of, 422.
Workmen's Compensation and Insurance Premiums, 146.

Z

Zinc Die-Casting Alloys, 235.
